Dear Sir:

In response to the notice of restriction dated June 21, 2005, applicant herewith elects the Group II claims 10-18, with traverse. The restriction is traversed, since there remain linking claims in the case, such as claim 18. However, all of the claims 2-7 (would-be non-elected claims) are cancelled. Claim 19-25 are added, each directed to the elected "voice recognition" subject matter.
